

How to signup for the MC3 Summer Send-off race

You need to create an account on rcsignup.com if you are not already registered.

Go to top right of any page of that website, select “Register”

Select “racer/basher registration”

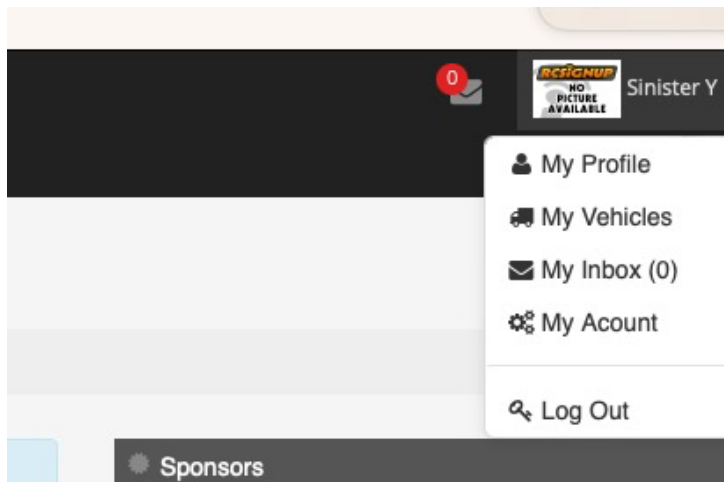

Fill out mandatory fields (denote by red asterisk).

To clarify “Login” is like a user name, e.g. “hotstuff”

Email is your email, etc.

Once your account is confirmed, go to your profile and add your vehicle(s).

Select “add vehicle”

I would suggest to name your vehicle according to class or something that lets you uniquely identify the RC vehicle

Select 1/28th scale electric onroad

Make as “kyosho” (there is no option for atomic, etc.)

For all other values, just input “came with vehicle”
